# care & maintenance

## TAPWARE & ACCESSORIES

Where your tapware/accessories remain dry in use, a soft cloth can be used to remove surface dust. Alternatively, a wipe over with warm soapy water is all that is required to maintain the finish in perfect condition for a lifetime of use.

Do not use harsh detergents, abrasive cleaners or citrus based cleaners, as these will damage the surface.

Your tapware & accessories should never be installed using acetone silicones.

Use of wax based furniture cream should be avoided as these can result in a buildup of deposits, which could detract from the appearance.

Do not use undue pressure and wipe in one direction only.

Do not use disinfectant to clean stainless steel parts and components.

Do not use hydrochloric acid (HC) for cleaning. This will lead to pitting and stress corrosion cracking (SCC).

Do not use cleaning products containing chlorides and halides (e.g. Bromine, Iodine and Fluorine).

## PLATED TAPWARE & ACCESSORIES

Gold, Rose Gold or Black Sapphire plated products should always be cleaned with care using a soft dry cloth or a soft cloth with warm soapy water.

PEX hoses will not break down or contaminate your drinking water and are resistant to chemicals such as chlorine.

## DURABLE FINISHES

Available in a range of durable finishes with increased resistance to scratch marks, abrasions and heat. Please refer to [www.jamiej.com.au](http://www.jamiej.com.au) for care and maintenance instructions.

## DZR BRASS
